

# RI TRANSPARENCY REPORT 2020

## **VERIANOS AG**

An investor initiative in partnership with UNEP Finance Initiative and UN Global Compact

### About this report

The PRI Reporting Framework is a key step in the journey towards building a common language and industry standard for reporting responsible investment (RI) activities. This RI Transparency Report is one of the key outputs of this Framework. Its primary objective is to enable signatory transparency on RI activities and facilitate dialogue between investors and their clients, beneficiaries and other stakeholders. A copy of this report will be publicly disclosed for all reporting signatories on the <u>PRI website</u>, ensuring accountability of the PRI Initiative and its signatories.

This report is an export of the individual Signatory organisation's response to the PRI during the reporting period specified above. It includes their responses to mandatory indicators, as well as responses to voluntary indicators the signatory has agreed to make public. The information is presented exactly as it was reported. Where an indicator offers a response option that is multiple-choice, all options that were available to the signatory to select are presented in this report. Presenting the information exactly as reported is a result of signatory feedback which suggested the PRI not summarise the information.

#### **PRI disclaimer**

This document presents information reported directly by signatories. This information has not been audited by the PRI Secretariat or any other party acting on their behalf. While this information is believed to be reliable, no representations or warranties are made as to the accuracy of the information presented, and no responsibility or liability can be accepted for any error or omission.

Mandatory General Indicate if your organisation has a policy on managing potential conflicts of interest in the investment process ✓ Yes Describe your policy on managing potential conflicts of interest in the investment process In general, if there are real or potential conflicts of interest in the firm, a three-step approach is applied: 1. Analysis of the potential threat and open discussion with all affected staff and business units as well as disclosure to affected third parties; 2. Identification of potential solutions, e.g. Chinese walls; 3. Final decision whether to proceed with the project if internal management and affected external parties are convinced that the threat can be managed.
